Homework 7

HTML file for Homework 7 showing Amber by 311

```
String).bak  JS Homework 7.js M  Homework 7.html X  .gitignore  Calc Four Func.jpg  ...
Homework 7.html > html > body > p
1  <!DOCTYPE html>
2  <html>
3    <head>
4      <title>311</title>
5    </head>
6    <body>
7      <h1>Amber</h1>
8      <h2>2000</h2>
9      <p>
10       Brainstorm, take me away from the norm
11       I got to tell you something
12       This phenomenon, I had to put it in a song
13       And it goes like
14     </p>
15     <p>
16       Whoa, amber is the color of your energy
17       Whoa, shades of gold display naturally
18     </p>
19     <p>
20       You want to know what brings me here, oh
21       You glide through my head, blind to fear
22       And I know why
23     </p>
24     <p>
25       Whoa, amber is the color of your energy
26       Whoa, shades of gold display naturally
27     </p>
28     <p>
29       You live too far away
30       Your voice rings like a bell anyway
31       Don't give up your independence
32       Unless it feels so right
33       Nothing good comes easily
34       Sometimes you've got to fight
35     </p>
36     <p>
37       Whoa, amber is the color of your energy
38       Whoa, shades of gold display naturally
39     </p>
40     <p>
41       You launched a thousand ships in my heart, so easy
42       Still it's fine from afar
43       And you know that
44     </p>
45     <p>
46       Whoa
47       Brainstorm, take me away from the norm
48       Whoa
49       I got to tell you something
50     </p>
51   </body>
52 </html>
```

CLI program that changes every word of the same occurrence in an HTML file.
